- Investiture Ceremony on 28th March, 2023
- Jubilee Gate inauguration on 25th March 2023

## JUBILEE GATE INAUGURATION

Gate signifies ceremonial entry to certain important area.

Khalil Gibran says,  
"Trust in dreams,  
for in them is  
hidden gate to  
eternity."

Our magnanimous seat of education that is Mount Assisi School, although well known among residents of Bhagalpur for years, could not get an opening to the main road. In this golden jubilee year it was made possible due to efforts of TOR Fathers and Management.

We do hope this impressive jubilee gate will definitely open new vistas in field of quality education for our city and the state. Students receiving best academic environment and world class facilities would be the precious responsible part of our society helpful for God and Country!

- MS MAMTA

## JUBILEE GATE OPENS : A SYMBOL OF PROGRESS AND PRIDE

The long awaited jubilee gate was finally open to the students, parents, teachers and visitors on 25 March 2023, making Mount Assisi, Ranitalab campus accessible directly from NH80. The gate commemorates the school's Golden Jubilee and represents the values of unity and progress that we hold dear.

The opening ceremony was a grand affair, attended by the President of the school, Rev. Fr. Thomas Chittookkalam TOR, friars, Principals of all catholic schools of Bhagalpur, students, teachers, staffs and well wishers. The gate was unveiled by Fr. Jose Chackalackal TOR, the Secretary General who also spoke about the importance of this occasion. The jubilee gate, more than a decorative structure, it serves as a functional entrance, reducing congestion on the western entry.

The release of Masco Legends and Masco'23 Our annual school magazine, MASCO23, and MASCO LEGENDS23 were officially released on 25 March 2023 on the occasion of the opening of the Jubilee Gate. MASCO23 is a collaboration of students, teachers and alumni featuring articles, photographs and artworks while MASCO LEGENDS23 is a souvenir for the outgoing ISC 2023 batch.

The event of the inauguration of the Jubilee Gate was enriched by a cultural programme put up by the students of Bhagalpur and Ranitalab campuses. Assisi remains thankful to the Almighty for all his blessings and we gratefully remember our well wishers for their incessant support and encouragement.

## Nursery Welcoming

10th March 2023 was the first day of class Nursery in Mount Assisi School. Few laughed, few cried "Ghar jana hai"; it's normal but few cried after seeing others crying. Nursery teachers organized a special assembly for the kids.

Mount Assisi has always tried to provide best quality education to its students. For making it easy for the little munchkins to learn different things, interactive panels have been installed in all the class rooms.

Nursery is not all about academics, instead it's about learning with fun. There are a lot of activities and competitions for nursery and the first to come up is the tricycle race on 28th April 2023.

What Assisi makes is not book worms but individuals having creativity, moral values, manners and ethics. It's a matter of pride to be called a mountazian and soon our little munchkins will realise it.

## BOARD EXAM 2023

Examinations have an important role in the process of learning, and board exams are turning points.

Assisi also had its 2023 ICSE and ISC batches. Generally every batch, every student has same feeling, excitement and nervousness. They prepare for almost 1 year sacrificing everything and putting their constant efforts and focus on getting the best.

The exams went almost for 1 month. ICSE board exam from 27th to 29th March 2023, and ISE board exam from 13th February to 29th March 2023.

In my interaction with some mountazian about their feelings on their board exam phase, I heard of different thoughts.

"It was the first ever board exam for our batch , because we are Covid batch and didn't give our ICSE board exam. So it was all new, the feelings, the nervousness everything" said Shalini Kumari, 12th Humanities.

"Two months of experience was both good and bad. Good in the sense it was great studying, discussing and clearing doubts with friends. And the bad part was the pressure" – Sanatan Sharma, 12th science.

"The environment was completely different from our normal exams . And talking about stress, it only stays till first exam , after that everything becomes normal, or to be more specific better than first day " - Vaibhav Raj, 12th commerce.

" Board exam was quite long yet my experience is quite good . I didn't feel much difference except for the fact in this we got enough study sessions. Also we were already trained by our teachers" - Praggya Prakhar (10 E)

And now they have finally completed their exams and everyone is waiting for results. The ISC students are engaged in CUET for getting better college.

'Students must remember that this isn't their life's only exam it is just the beginning. They mustn't get disheartened if the results did not come out as expected. Because that is what good students are made of. And Assisi has always taught that good students are those who come up with easy answers to all complex questions in life.

Rather than being upset, you should get into a happy space.

And believe me, your smile and confidence is all that matters to everyone who matters to you.

## NEWCOMERS' EXPERIENCE

Dear Parents and Guardians,

I am writing to update you on the progress of Mount Assisi School and the experiences of our new students as we begin a new academic session. As a senior student at the school, I have had the pleasure of interacting with some of our junior students, and I would like to share their first impressions with you.

The new students have expressed that the school is vast and that it is like a maze and they have already begun exploring the expansive school campus and are excited to learn more about its facilities and resources.

Our teachers have been commended by the new students for being good and understanding. They possess a wealth of experience and knowledge and are always willing to help our students with any challenges they face.

At Mount Assisi School, we provide vast opportunities for sports, and our juniors are already showing interest in various sporting activities. We have state-of-the-art facilities, qualified coaches, and a comprehensive sports program that caters to the diverse interests of our students.

Lastly, our senior students have been described as loving and friendly. They make it their responsibility to ensure that new students feel welcome and supported. Our juniors have already made some friends and are enjoying the positive atmosphere of our school.

As we continue with the academic session, we remain committed to providing our students with a holistic education that fosters growth and development. Thank you for your continued support as we work towards this goal.

-AASHISH AAYUSH, XII SCIENCE

## TEACHER'S SEMINAR

Teacher's Seminar:

One of the best seminars Mount Assisi ever had. 12March 2023 was a full day engagement for the teachers in Mount Assisi School, Bhagalpur. Annual seminar was held for all teachers of both the campuses and these are such rare occasions we all come together.

The resource person, Mrs. Salony Priya, really cast her spell on the teachers and kept them engaged till 4pm. It was mainly about handling students in the post COVID period. All participants said, "It was wonderful!"
